

# Anxious About Ice Cream

**Dear Tim:**

There's been a lot in the news lately about bacteria in ice cream, which is one of my absolutely favorite summertime treats. Is there anything to the hysteria over listeria or is it safe to enjoy one of summer's timeless treasures?

**-Conevoro on Coventry**

**DEAR  
TIM**

**Dear Conevoro:**

Any time you hear about problems with the food supply, you're right to raise questions. There's nothing more important to us than making sure the food we sell to our customers is not just fresh and high-quality, but also safe. That's why we've been so impressed by the way our partners at Jeni's have handled this issue. They put customers before profit and made sure the ice cream we all love is safe to be sold. So pick up a pint in the freezer case by the register and enjoy. We stand by it like they stood by us.
