

Tay-Tay Trouble

Dear Tim:

I'm not sure if you heard, but Taylor Swift is in the middle of more relationship drama! Apparently she started seeing her new celebrity boyfriend before she ended it with her old one. Am I the only one who's had it with this whole boyfriend-of-the-month routine?

-Had It on Hadleigh**Dear Had It:**

I can't say I've had it because I haven't really been following it. But from what I understand she does have a bit of a pattern when it comes to these celebrity boy toys. It seems she falls madly in love right before some major career milestone like an album release, tour or awards show, then as soon as it's over, she moves on to a new guy with enough magazine covers to choke a publicist and enough material for a new record. I don't get it, but it appears to be working. If it doesn't work for you, tune it out. If it does, visit our magazine rack in aisle 6.
